

ABOUT THE FOUNDER JACQUIE MCIVER

I am a single mother of Jeremiah, a wonderful little Angel Gift from God to nurture and love. As a former Pastor, it has always been a true desire to embrace everyone and help them discover their purpose in life. As an entrepreneur consultant, I helped organizations to exceed their own potential. After graduating from Arizona State University with a MBA, in Marketing I spent several years traveling the world as a management consultant in corporate America with one of the top four firms in the world; Pricewaterhouse Coopers, LLC.

Parenting is similar to business management in that you must utilize time and resources effectively. As a parent/caregiver of my son with special needs, my professional and educational skills come in handy to provide daily solutions. I am committed to a life in of coaching, advocating, encouraging, strategizing, supporting and inspiring others.

As a visionary of Jeremiah's Voice Inc., I have combined my educational, ministerial, professional and parenting skills to launch an organization that I believe will help to aid those who care for and those who live with disabilities. I believe in transparency, openness and honesty, and that your past circumstances do not dictate your future position in life.

Currently, I am a member of the prestigious National Golden Honor Key Society, an honor granted for maintaining the highest level of academic achievement. Previously, I held the position of the 1st Vice President of the Lewisville ISD Special Education PTSA Board of Directors. Additionally, I serve as the Treasurer of the Polser Elementary School PTA. My life desire is to spread hope to parents and caregivers of those living with disabilities; as well as minister to those who are hurting.
